

New Sensational Bobbin-less Label Dispenser **LDX** series now on sale.

LDX - 60
LDX - 120
LDX - 180

Operability is the first priority. **Compact / Energy Saving** Label Dispenser.

• Operation Panel

As depends on the operation, there are 6 different kinds of mode such as auto-mode, manual-mode, and L-mode for setting up the length of label.

• Label Hold Wing

Label will be completely fixed by Label Hold Wing. This is to prevent the side-slip of label.

• Wing Adjust Dial

It is very easy to adjust label position by this dial.

• Backing Paper Release Bar

No scattering is happened, and more-over, it is very easy to remove label roll by hand.

※Photograph LDX-120

Function of Mode

- **Auto-mode** Label will automatically come after you take label.
- **Manual-mode** Push the start-button and adjust the length of label.
- **L-mode** Easily set up the label stop position.
- **C-mode**(count up mode) It is possible to set up counting the number of label up to 9999.
- **P-mode**(count down mode) Set up the number of label as you need to remove.
- **F-mode** (speed setting mode) It is possible to set up the feeding speed of the label by 6 different levels.
